PHOTOGRAPHY

---

HELLO!

---

Thank you for reaching out about a family photo session. I am a photographer; but more than that ... I am a storyteller. Photography is the lens that gives me a glimpse into who your family truly is; it is this that I long to capture.

I would be honored to photograph you and your loved ones. Let me know if you're interested and we'll get a session scheduled just for you!

Sincerely,  
Jen Rosiere

## GENERAL SESSION INFORMATION

---

*The fine print...*

### SESSION LENGTH

---

Please see the "session packages" page at [www.lylalanephotography.com](http://www.lylalanephotography.com) for session length details. I work quickly, especially with little ones, to capture the images needed to create your gallery of images. Through experience, I've learned that children respond much more positively to a session that "keeps things moving".

The comfort level of each member of your family during the session is incredibly important. If all necessary images are captured before the full allotted time is completed, I will either continue photographing for additional options or end the session depending on how everyone's feeling!

### NUMBER OF IMAGES

---

Please see the "session packages" page at [www.lylalanephotography.com](http://www.lylalanephotography.com) for image details. Though many more images will be taken during your session, our quality standards and your session questionnaire answers determine which pictures are selected and edited. Each image is custom edited in both color and black-and-white. Additional images will not be shown at the request of the client... but don't worry: the images included are specifically chosen to take your breath away!

### EDITING TIME

---

Your images will be presented to you in an online, password-protected gallery within three weeks of your session date.

### EXTENDED FAMILIES

---

Most photo sessions are limited to immediate family members only. (Up to 5 individuals) Additional subjects can be added for \$25 per person. Extended family session options are available for parties over 12 people. Please see "session packages" page at [www.lylalanephotography.com](http://www.lylalanephotography.com) for more details.

### GALLERY EXPIRATION

---

Your online gallery will be active for 14 days from the date it's posted, so be sure to place your orders within this two week period! After your gallery expires, we require a \$50 fee to reload and reopen it.

### OUTFIT CHANGES

---

We find that family sessions run smoother without outfit changes. Having said that, we do allow one change if your heart is set on it!

### TRAVEL

---

I will travel up to 15 miles from my home in (Darien, IL) for sessions. If you'd like to hold your session at a location further from that, please contact me for a travel quote.

## COPYRIGHT & SOCIAL MEDIA

---

All images are copyrighted by Lyla Lane Photography. If you choose to purchase your full-resolution files, a release form will be included that allows you to have the images printed at any location and in any medium. You're welcome to post the images on social network sites (Facebook, Instagram, etc...) and/or personal websites and blogs. Not applying additional filters, mobile edits, etc. and providing photo credit/tagging "Lyla Lane Photography" on social media posts is always appreciated. The images cannot be used for advertising or other revenue-producing purposes without specific permission.

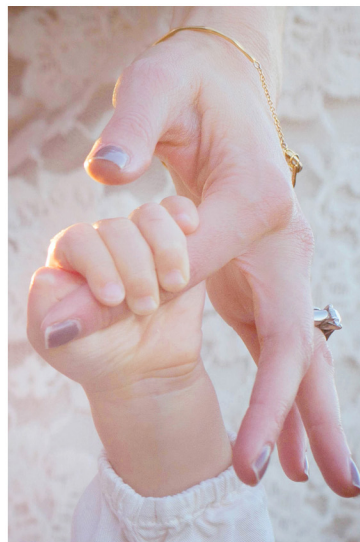

## PRINTS & PRODUCTS

---

You are welcome to use any printer of your choice to print your digital images. If you choose to order prints through Lyla Lane Photography's preferred printer, print orders will be delivered to your home within two weeks of the order date. Professional color-calibrated print options will be presented to you.

Due to the custom nature of photographic prints and products, all sales are final. If, however, there is any issue with a print or product you've ordered through us, please let us know and we'll make it right!

Any prints or products not processed through our professional lab cannot be guaranteed due to common color and finish discrepancies.

---

## SESSION TIMELINE

---

We want our clients to know exactly what to expect when booking a session with us. This timeline details the process from start-to-finish!

---

## IS IT A DATE?

---

*Let's make some magic!*

To us, a photography session is so much more than just the time we spend together taking pictures. From start to finish, we want the families we work with to understand just how special we think they are.

From the moment you book your session until the day your final files and prints are delivered, our goal is to give you an experience you won't easily forget. After all... isn't that what photography is all about?

If you've read through these pages and would like to move forward with scheduling a session for your family, reach out to us via email and we'll find a date and time! At that point, you can bet that we'll be gearing up for our time together and doing everything we can to make your session special, fun, and one-of-a-kind.

We're excited to meet you to capture the core of what makes your family beautiful and unique!

Warmly,  
Jen
